Toyota Tundra CrewMax Long Box Under Seat Storage for 2014-2021 P/N USSCM-03

Our metal best seller is the Locking Long Box under seat storage! Constructed from lightweight aircraft aluminum and tig welded for strength with a black powder coated finish. The difference is that this has one single long compartment with two locking lids. This allows you to store long items such as fishing poles, tools and even rifles. We include with this kit with two new floor seat rails that allows installation without the need to raise the seats. This keeps the seats in the factory location with no contact.

Tundra P3 Brake Controller Mounting Plate for 2016-2018 P/N TP3PLT

This P3 Brake Controller Plate mounts your P3 Controller Unit directly to your front dashboard. This allows easier access to your Trailer Brake Controller by repositioning it at arms length. Most standard Prodigy P2 and P3 Controllers are located below the dashboard and in the way of your knee, causing an unsafe compromise with the knee airbag.

Note: This is the metal plate and screws only, does not include Dash Panel

Toyota Tacoma Prodigy P3 Brake Controller Mounting Kit for 2016-2019 P/N TACOP3

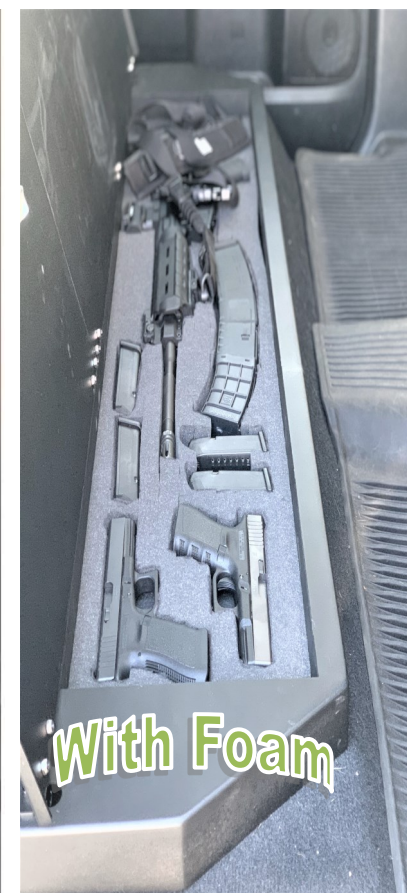

This plate replaces the little cubbie on the left side of the dash. It will provide a convenient place to mount the brake controller as well as a safe place being that you won't have to reach down to access the manual override lever on the controller. This panel is made from injection molded Polycarbonate plastic. It is a simple installation that provides a factory installed look to your Tacoma.

Toyota Tundra CrewMax Long Box Foam Inserts P/N 42880-19380

2" thick Custom foam Precut to fit your ESP Long Box Toyota Tundra Storage Unit allowing you to Pick and Pull from a perforated 1" foam insert to the desired shape securing your product in place! Includes a 2nd 1" solid Foam piece as a base, customized to lay flat at the bottom of your storage unit for maximum protection! 1.35# Charcoal Ether ELE Pick n' Pull Die Cut Foam Insert comes cut 44 13/16 x 10 7/16 x 2 with the 1st pad containing 1" x 1" Cubes for forming and a 2nd 1" layer pad as a set.

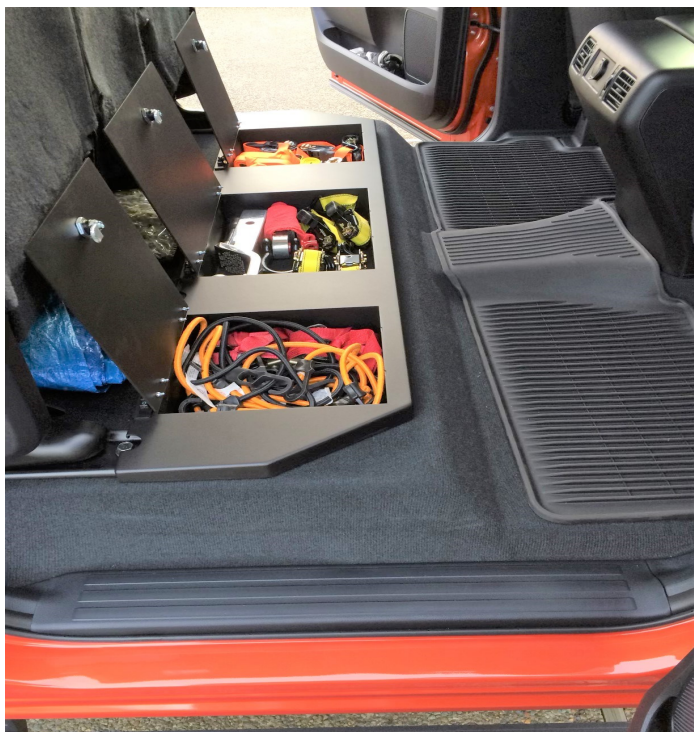

Toyota Tundra CrewMax Under Seat Storage for 2014-2021 P/N USSCM-01

Our Lockable Rear Seat Storage Unit

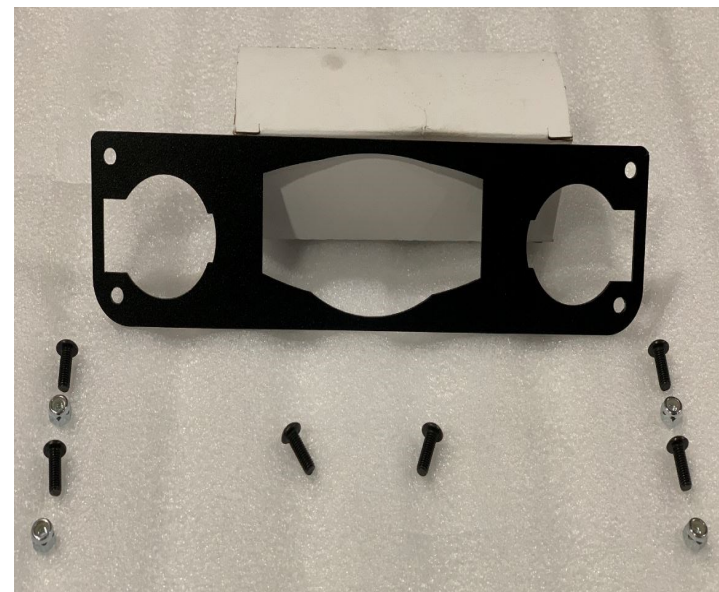

Custom designed Lockable Rear Seat Storage Compartment. This storage system fits securely under the rear fold up seat by using the existing seat rails and seat bolts to attach to the floor for safe and secure mounting.

Heavy Duty Construction

Constructed from lightweight aircraft aluminum and tig welded for strength with a black powder coated finish. Heavy duty steel hinges with steel center pin for added security. Has three separate locking compartments keyed alike for extra convenience.

Tundra P3 Brake Controller Mounting Plate for 2016-2018 P/N TP3PLT-7

FITS BUCKET SEAT MODELS ONLY

The P3 Brake Controller Mounting Plate mounts your P3 Controller Unit directly to your front dashboard. This allows easier access to your Trailer Brake Controller by re positioning it at arms length. Most standard Prodigy P3 Controllers are located below the dashboard and in the way of your knee, causing an unsafe compromise with the knee airbag.

Fits 2007-2013 Tundra and Sequoia 2008-2020

Note: This is the metal plate and screws only, does not include Dash Panel*

Tekonsha Trailer Brake Controller for any truck model!

Harness Specific

P/N 90195

With a proportional brake controller, you can get heavy-duty emergency braking, general braking or slow-to-an-idle braking for your trailer automatically. The intensity with which your trailer brakes are activated and the rate at which they are applied are dependent on the deceleration of your tow vehicle. This means that, unlike time-delay controllers - which sends the same amount of preset power to your trailer brakes every

.Included in Kit!

Toyota Tundra CrewMax Plastic Under Seat Storage for 2014-2021

P/N USSCM-02

Our Plastic Rear Seat Storage Unit

Our Plastic best seller is custom designed from .187 ABS Plastic, this unit allows for plenty of storage for necessity items such as tie downs, recovery straps, jumper cables and your first aid kit. With the seats down, your gear is secure and out of sight.

Lightweight but Strong

Weighing in at only seven pounds, the ABS plastic provides a ridged and strong tray for all of your belongings .

2005-Current Toyota Tacoma Double Cab P/N USSTACO-01

Locking Under Seat Storage

This unit was designed as a useful alternative to the plastic unit that comes standard with your truck. This lockable unit is made to secure your belongings making it hard for someone to pry open. Designed to fit flush with the floor for a very clean, factory installed look. This is a direct replacement with only minor modifications. This Storage unit is constructed out of a .125 5052 steel frame and has aircraft aluminum lids. We use a steel hinge with a stainless steel pin that is impossible to remove. Our locks use a heavy duty cam that makes the unit more secure. It features a black powder coat finish that is durable and matches the theme of the Tacoma's interior.

2014-2019 Toyota Tundra Tekonsha P2 Brake Controller Mounting Kit P/N TP2MNT

The P2 Brake Controller Mounting Kit mounts your P2 Controller Unit directly to your front dashboard. This allows easier access to your Trailer Brake Controller by re positioning it at arms length. Most standard Prodigy P2 and P3 Controllers are located below the dashboard and in the way of your knee, causing an unsafe compromise with the knee airbag.

Toyota Tundra P3 Brake Controller Mounting Kit for 2014-2019 P/N TP3MNT

The P3 Brake Controller Mounting Kit mounts your P3 Controller Unit directly to your front dashboard. This allows easier access to your Trailer Brake Controller by re positioning it at arms length. Most standard Prodigy P2 and P3 Controllers are located below the dashboard and in the way of your knee, causing an unsafe compromise with the knee airbag.

2009-2018 Ram Crew Cab 1500/2500 Locking Floor Box P/N RAM-01

Simple Yet Practical

Our Locking Floor Box is designed as a direct replacement for the plastic box that sits in the floor under the rear mats. You can replace one side or both for added security. This is a simple installation with no modifications to your truck.

Heavy Duty Construction

This box is constructed of high strength steel with a lightweight aircraft aluminum lid. It uses a heavy duty cam lock and steel hinge with stainless steel hinge pin. This unit is finished with the same matte black powder coat as all of our products. This is a

2015-Current F-150 2017-Current, Raptor 2017-Current, F-250 2017-Current F350 2017-Current Super Crew P/N USS150-01

Locking Under Seat Storage

This unit fits all the late model F-Series Super Crew trucks. This unit fits under the rear seat and bolts directly to the seat frame allowing for a simple install requiring no modification to the vehicle. Our storage system allows for plenty of storage of tools, recovery equipment and has plenty of room to lock up your firearms. This Storage is constructed from 5052 Steel with aircraft aluminum lids. As all of our locking storage systems, it uses the same steel hinge with stainless steel pin that is impossible to get into. It has the same locks that are keyed alike so you won't have to fumble for a key. This system fits nicely under the rear seat and has a black powder coat finish that looks good and is durable too.

2007 (NEW)-2018 Chevrolet Silverado/GMC Sierra & Denali 1500, 2500, 3500 2500 HD Crew Cab Locking Under Seat Storage P/N USSSIL-01

Durable Versatility

This is our Locking Under Seat Storage for the Silverado and Sierra/Denali Crew Cab. This unit is perfect for the contractor or sportsman. Our Locking storage provides the security you need to be able to secure valuable tools or firearms.

Perfect Fit and Function

Our Locking Under Seat Storage for the Silverado and Sierra/Denali is made from high strength steel that is laser cut, bent and welded with precision. It features a split lid that can be opened on one side or both. It features two heavy duty cam locks that are keyed alike and the keys can be removed while locked or unlocked. We use a steel hinge with a stainless pin that makes it almost impossible to break. It is finished in a matte black powder coat that is resistant to

Chevy Silverado & 1500-3500 HD and GMC Sierra Storage for the 2019-Current P/N USSSIL-02

Direct Fit Replacement

This Storage fits both the Chevy Silverado and GMC Sierra giving you a lot of extra storage!

Our locking storage system replaces the plastic storage box located under the rear seat, providing secure storage for your valuables. This unit is crafted from 12gauge steel that is tig welded for strength. It is finished in a durable black powder coat that resists scratches. For security, we use a steel hinge with a stainless steel pin that is pressed in at 2 tons of pressure, making it impossible to drive out. We use two heavy duty cam locks with beefed up cams to increase security. There are two doors that match the 60/40 rear seat. Each door is equipped

Dodge Ram CrewCab Under Seat Storage for 2019-Current P/N USSRAM-02

Factory Fit and Finish

This Storage fits snug under the back seat replacing the factory organizer open frame with no modifications. Doesn't interfere or touch when seat is down-see picture. This locking storage system provides secure storage for your valuables or firearms.

This unit is crafted from 12gage cold rolled steel, tig welded for strength. It is finished in a durable black powder coat that resists scratches. For security, we use a steel hinge with a stainless steel pin that is pressed in at 2 tons of pressure, making it impossible to drive out. We use two heavy duty cam locks with beefed up cams

2015-Current Chevrolet Colorado/GMC Canyon CrewCab Locking Under Seat Storage P/N USSCOL-01

We are proud to announce the release of our new Locking Under Seat Storage for the Colorado and Canyon. This replaces the plastic storage that is already installed. This is a secure way to keep valuables safe while you are away from your vehicle.

Versatile Factory Look

This unit is constructed from 12 gauge steel finished in black powder coat. It features split lids with gas assist springs to allow you to open it from either side of the truck. It installs using factory mounting locations eliminating the need to modify the vehicle. Our Colorado/Canyon Under Seat Storage gives you a clean factory installed look.

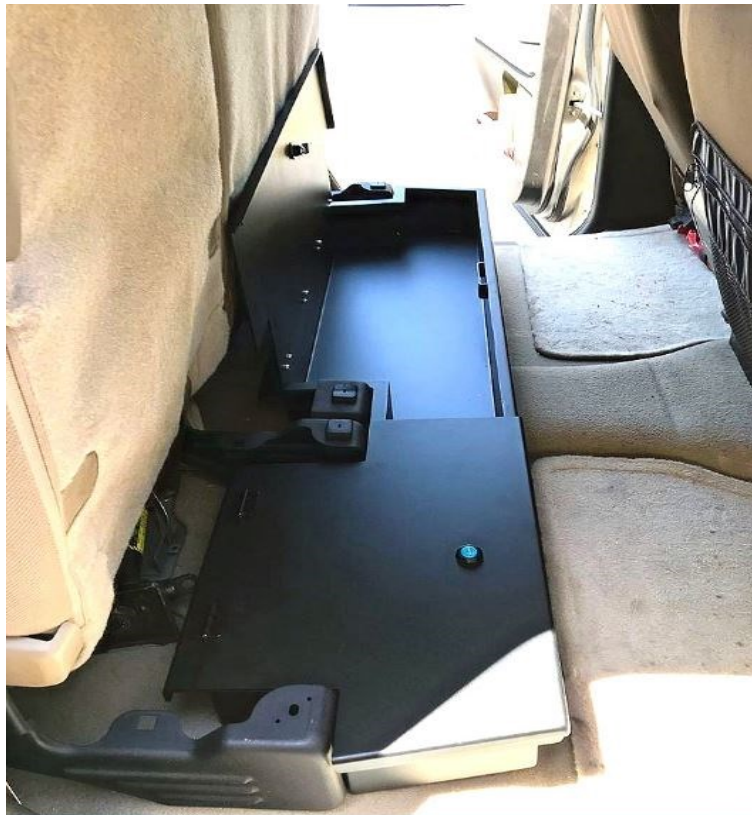

2007-2021 Toyota Tundra Double Cab Under Seat Storage P/N USSTNDDC-01

Factory Fit and Finish

If you need a secure place to protect your tools, laptop or firearms, look no further. Our Locking Under Seat Storage is a direct bolt in unit that installs direct to the seat frame. It is constructed from 12 gage steel with aluminum lids tig welded for strength. It is finished in a durable black powder coat. We use heavy duty locks and hinges to provide secure storage for your 2007-2019 Tundra Double Cab.

**Conflicts with JBL Subwoofer*

2003-2016 Ford F-250 & F-50 Super Duty Crew Cab Locking Under Seat Storage P/N USSF250-01

Direct Fit Replacement

Our Locking Under Seat Storage is designed to replace the metal folding floor on your 2003-2010 Super Duty and the plastic storage unit on your 2011-2016 Super Duty. It is an easy installation and gives you the piece of mind to be able to lock up valuables in the cab of your truck.

This unit features three separate lids with locks that are keyed alike. It is custom designed to fit the contours of your truck. It uses the same high strength hinges as our other products and is finished in a scratch resistant matte black powder coat.
